January 20, 1982

PRIOR ART STATEMENT

Hon. Commissioner of Patents and Trademarks  
Washington, D.C. 20231

Sir:

The Amendment filed October 21, 1981 in the above-identified application called the Examiner's attention to certain prior art cited against applications corresponding to the present application but filed outside the United States. Copies of this art are now enclosed (where appropriate) for the Examiner's inspection.

French Patent Publication 2,085,759 (copy enclosed)

This published French patent application corresponds with U.S. Patent 3,819,633 to Ambrogi et al., cited by the Examiner in his Official Action of July 20, 1981 as reference (E).

Since the reference is cited only to show the state of the art, it is not believed that the applicants need distinguish what is shown in the French patent publication from the claimed invention.

I hereby certify that this correspondence is being deposited with the United States Patent Service as first class mail in an envelope addressed to: Commissioner of Patents and Trademarks, Washington, D.C. 20231, on January 20, 1982

Donald R. Behcz, Esq.
